Wedding Cheese Cake

Something completely different from the traditional idea of a wedding cake.

Surprise and delight your wedding guests with your own choice of cheeses, tiered in the traditional form.

We will ensure your cheeses are in their prime.

Garnish it yourselves in an attractive manner - foliage, cherry tomatoes, green/purple grapes, flowers, and even some figurines all seem to work well. If

you are worried about cut flower or leaf stems touching the cheese, wrap the stems in a little clingfilm or foil.

Please contact Simon on one of our telephone numbers, or by e-mail to discuss your requirements.
